SKILLS

Technical Skills: Responsive Web Design, CSS3, HTML5, RESTful APIs, MongoDB, Express.js, Node.js, Git, Redux, React, JavaScript
Soft Skills: Time Management, Teamwork, Adaptability, Problem Solving

PROJECTS

StudyNotion | *HTML/CSS/JavaScript, React, Redux, Tailwind CSS, Node.js, Express.js, RESTful APIs, MongoDB, OAuth, JWT*

- 🚀 Deployed Link : https://study-notion-kappa-seven.vercel.app/
- ⬡ Github Repo : https://github.com/MAYANK-AGARWAL-123/StudyNotion
- Contributed to building an ed-tech platform that supports course creation, consumption, and rating for both students and instructors.
- Implemented user authentication and authorization using OAuth and JWT to ensure secure access to platform features.
- Developed and maintained interactive user interfaces with React, Redux for state management, and Tailwind CSS for responsive design.
- Integrated RESTful APIs and managed data storage using Node.js, Express.js, and MongoDB to support platform functionality.

Netflix Clone | *JavaScript, React, Node.js, Express.js RESTful API, MongoDB*

- 🚀 Deployed Link : https://netflix-clone-1s16.vercel.app/login
- ⬡ Github Repo : https://github.com/MAYANK-AGARWAL-123/Netflix-Clone
- Developed a responsive front-end interface using React to display movies and TV shows by genre.
- Integrated TMDB API to fetch and present live trending content within the platform.
- Implemented user authentication and real-time database features with Firebase for secure sign-up and personalized watchlists.
- Built RESTful APIs with Node.js and Express.js to manage user data and watchlists, storing information in MongoDB.
- Ensured a seamless and intuitive user experience across multiple devices through careful UI design and testing.
